RE: Marijuana Regulation

Dear Commissioner Swannack, Commissioner Kinzer, and Commissioner Largent:

We remain deeply concerned about the legalization of marijuana, with no regulation.

Marijuana and its production, processing, sale, and use are detrimental to individuals, families, businesses, careers, and our community as a whole.

Marijuana has no place in making electric power safer, more reliable, and more economical.

Nor does it in aviation, medical care, education, or any other productive part of society.

We urge you to regulate the production, processing, and sale of marijuana.

Thank you for your serious consideration of these critical emerging activities.

Sincerely,

Edmund O. Schweitzer, III PhD
President and Chief Technology Officer
Schweitzer Engineering Laboratories, Inc.
